

QUALITY POLICY

- i. The company will strive to continually improve technology, products and quality of execution, which will be adapted to the needs of each customer and their satisfaction.
- ii. All actions, to implement these policies, shall comply with, laws, regulations and requirements to 9001-2015, ISO13485, IATF16949, AS9100 standards.
- iii. Initiated principles:
 - ✓ Continuous improvement of the quality system.
 - ✓ Meeting goals and measures planned.
 - ✓ Planning and execution of suppliers' audits in order to improve performance.
 - ✓ Risk management is applied throughout the process, from the first customer contact.
- iv. Focus on the customer, sharing our knowledge and providing technology and supply chain solutions to meet customer requirements.
